OBJECTIVE

Seeking a position as a **Level Designer** where my personal drive, skills, education and experience can be effectively utilized.

SUMMARY OF QUALIFICATIONS

- ◆ Extensive knowledge and experience using UnrealEd, 3D Studios Max, Maya, Photoshop and MS Word to facilitate game development. Working knowledge of CryEngine editor, Lua, Java, and C++. Strong game design skills. Effective in guiding projects from concept through development to implementation.
- ◆ Exceptional analytical and troubleshooting focus. Proficient in analyzing problems that arise in design stages, identifying weaknesses and then making sound recommendations on effective course of action.
- ◆ Outstanding organizational abilities with attention to detail. Adept at prioritizing and balancing multiple tasks simultaneously in high energy, fast-paced environments, while consistently meeting all time deadlines and quality requirements.
- ◆ Highly industrious, goal oriented and self-motivated, with a proven track record for a superior work ethic, dedication and integrity. Excellent communication skills, both written and verbal.
- ◆ Work well either independently or as an active team member.

PROFESSIONAL EXPERIENCE
